There is an ongoing need for support transcribing satsang audio into the written word. If you are feeling called to help The Gangaji Foundation, transcribing is something that can be done anywhere in the world. When you transcribe a satsang you are in satsang! It is a beautiful way to deepen your own inquiry and provide your love and support to Gangaji and The Gangaji Foundation.

This video was an impromptu interview conducted during the weekend retreat at the Ashland Community Center. Please watch the video (below) , which offers you a great introduction to Transcribing and reveals a great secret of service. If you feel called to help out with Transcribing please call The Gangaji Foundation or email [info@gangaji.org](mailto:info@gangaji.org)
