for an amazing retreat in Bangalow ...

i look forward to spending more time in your presence in the future ...

I used to think there was more to do or resolve or meet within myself until I could live in freedom like you and when you put an end to this story I have been sitting in freedom ever since ... It has been peaceful and turbulent and everything in between and yet I have met it all with love and stillness that is always overflowing with fulfillment ...

love love love, namaste, pauly hunt
